Hi Andy,
Thank you Andy. I will pass these kind words on to the crews that worked here. I did check to if this alley is in a resurfacing program, unfortunately, it is not.

We are evaluating this section. I hope to have some costs for this by next week.

Hello John & Steve: I want to let you know that the paving crew did a great job repairing our alley and the business owners are very happy with the work that was done. It certainly makes the alley passable as we look into a more permanent solution whereby the business owners fund a total repaving performed by the City.

I know you have a daunting task in keeping our infrastructure in shape with limited resources and want to thank you for your prompt follow-up to our meeting of last week.

I think that we will be able to fund a reasonable cost to repaving the alley and John's opinion that the base appears to be in reasonably good condition is encouraging.

We're taking steps to alert the business owners to the detrimental effects of water on the alley and will continue to spread the word.

I look forward to the cost estimate on the alley resurfacing and thank you again for your efforts on our behalf.
